CHARTERED ACCOUNTANTS ■ CHARTERED TAX ADVISERS ■ BUSINESS DEVELOPMENT CONSULTANTS

## Procurement Consultancy

- Do you have the time and expertise to always achieve best results from suppliers ?
- Do you have time to research data, get to know the best suppliers and become familiar with the benchmarks for the market ?
- Have you reviewed your electricity, gas and water contracts and do you understand their complex tariff structures ?
- Are you getting the best deal from your Telecommunications provider ?
- Are you paying the best prices for items such as stationery, printing and IT consumables ?

The answer, in many cases, is "no". As a consequence, UK businesses are handing over an estimated £5 billion every year to uncompetitive suppliers in overpayments.

There are many cost reduction companies who can review your suppliers, contracts and expenditure.

However **Eacotts** is very pleased to be able to offer the services of **Derrick Sequeira**, a past chairman of the Berkshire Branch of The Institute of Directors as a specialist procurement consultant. He has a proven track record in revealing and recovering lost opportunities for increased profit with:

- Minimum disruption to your business
- Unrivalled reporting
- Positive impact on cash flow
